Introduction

This presentation continues on from Parts I & 2, which described the basic/ naked and embellished uses of Second Site.

A selection of options from the list in User Items will be described. This selection is based upon my own use of Second Site, and is not intended to be a complete review of all options. For an exhaustive reading of all that Second Site has to offer, go to the Help files.

User Items - Person Search

By default, Second Site does not allow searching for a particular individual. The usual options are to select Surnames > First letter of a surname > Select a surname of interest > scroll down the alphabetical list of people.

The Person Search option is brilliant. Not only can you enter first & middle name and surname, you can also narrow the search using birth year, death year, spouse, father and mother.

An index file is created when you create your site. When a viewer selects 'Person Search' the index file is downloaded to their computer. Once done, search findings are instantaneous.

User Items - Maps

There are many options for creating maps for any event in your TMG data. This feature requires data to be entered in the LatLong field of the Tag Entry window, in the form resembling this example, 46.36206,-63.72579.

The example described here will be for the Birth Tag. The same procedure is followed for Baptism, Christening, Marriage, Death and Burial tags, & repositories (e.g. churches, archives, cemetery entrances), or any other tags for which there are coordinates.

A future presentation on Second Site will describe more of my favourite options available in User Items. This is when the experience with Second Site really gets interesting. I will describe procedures for describing:

- Notable People
- Homesteads
- Ancestral Loyalist Migration Maps
- Other Ancestral Migration Maps
- Calendar of Events for Births, Baptisms/Christenings, Marriages, Deaths & Burials
- Repositories
- Icon Description

I will describe step-by-step instructions on how to create these special pages.

Until then, visit my web site to see how I have customized Second Site.
